

## Important Safety and Product Information

### WARNING

Failure to avoid the following potential hazardous situations could result in serious injury.

#### Choking hazard

This product and its packaging contain small parts and are **Not for children under 3 years old.**

#### Battery warnings

If these guidelines are not followed, the battery may have a shortened life span or may present a risk of damage to the Trackimo device, fire, chemical burn, electrolyte leak and/or injury.

- Do not use sharp object to remove the battery.
- Do not puncture or incinerate the device or battery.
- Do not leave the device exposed to a heat source or high temperatures, such as in the sun in an unattended vehicle. To prevent damage, do not store the device under direct sunlight or remove the device from the vehicle.
- Do not disassemble, puncture, or damage the battery.
- Contact your local waste disposal department to dispose of the device/battery in accordance with applicable local laws and regulations.
- Do not immerse or expose the device to water or other liquids, fire, explosion, or other hazards.
- When storing the device for an extended period of time, store under the following environmental conditions, temperature range: 32o - 77oF (0o - 25oC)
- Do not operate the device outside of the following environmental conditions, temperature range: -4o - 131oF (-20o - 55oC)
- If using an AC charger or an external battery charger, only use the accessory approved for your product. Keep the Battery away from children.

#### Declaration of Compliance

Trackimo hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC, 2006/95/EC. To view the full Declaration of Conformity, please visit the Trackimo web site.

#### FCC Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for the FCC, Part 15 Subpart C rules. These limits are designed to provide reasonable protection against harmful interference.

This product does not contain any user-servicable parts. Repairs should only be made by an authorised Trackimo service center. Unauthorised repairs or modifications could result in permanent damage to the equipment, and void your warranty and your capability to operate this device as per Part 15 of the FCC Rules.

### **Pacemakers and Other Medical Devices**

Radiofrequency energy (RF) can interfere with some electronic devices. The FDA and Pacemakers Industry recommend the following precaution guidelines to minimize the risk of interference with pacemakers operation:

- Keep the device at the opposite side of the body where the pacemaker is implanted to add some extra distance between the pacemaker and the device. Try to maintain a distance of at least 6 inches (15cm) between the pacemaker and the device.
- Avoid placing a turned-on device next to the pacemaker implant (e.g. don't carry the device in a shirt or jacket pocket directly over the pacemaker).
- If you think that interference may be occurring, turn off the device immediately.

For other medical devices, consult with your physician or Medical Device manufacturer to determine if you Trackimo device may interfere with the medical device and to determine any precautions that you can take to avoid interference.

### **RF exposure**

This device includes a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines and as referenced in FCC Part 1.1310. The guidelines are based on IEEE ANSI C 95.1 (92) and were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to ensure the safety of all persons, regardless of age and health.

As such the Device is designed to send and receive low level of Radio frequency (RF) energy for data communications. The device has been tested and found compliant with the applicable regulations as part of the radio certification process.

**Notice**

### **Laws, Regulations and Terms of Use**

It is the user's responsibility to ensure that the use of the device and its services, e.g., Web Application and Data, comply with applicable laws. Trackimo is not responsible and shall accept no blame for the use of this device in violation of any laws or regulations.

### **Map Data Information**

**Limitations:** Although extensive effort has been made to produce error-free and complete data, all Maps data have limitations due to the scale, resolution and date. Trackimo disclaims any responsibility for the accuracy or correctness of the data. Data may be subject to change without prior notification.

**No warranty:** Data is provided "as is," without any warranty whatsoever, including but not limited to any warranty as to performance or fitness for any particular purpose.

**Liability:** The entire risk as to the results of the use of this data is assumed by the user. Trackimo is not responsible for any interpretation or conclusions made by those who use it. Trackimo shall not be liable for any direct, indirect, special, incidental, compensatory or consequential damages or third-party claims resulting from the use of this data, even if Trackimo has been advised of the possibility of such potential loss or damage. In states that do not allow the exclusion or limitation of incidental or consequential damages, this data may not be used.

### **Product Environmental Program**
